

Human Brain Project
Education Programme

6TH HBP STUDENT CONFERENCE ON INTERDISCIPLINARY BRAIN RESEARCH

22-25 FEBRUARY 2022

MEDICAL UNIVERSITY INNSBRUCK, AUSTRIA

ABSTRACT SUBMISSION DEADLINE: 27 OCTOBER 2021

REGISTRATION WILL OPEN SOON

The human brain is such a complex system that it can only be understood by combining knowledge and practices from multiple scientific fields. The 6th HBP Student Conference provides an open forum for the exchange of new ideas among early career researchers working across various scientific fields relevant to the Human Brain Project (HBP). Attendees will be exposed to the data-driven and multidisciplinary brain research approach of the HBP and will have the opportunity to use the EBRAINS research infrastructure. The conference will provide space for extensive scientific dialogue (both intra- and interdisciplinary) amongst peers and faculty through a variety of discussion sessions, lectures, workshops & hands-on training sessions and social events. It will take place as a hybrid event, organised and supported by the HBP Education Programme.

The 4-day conference will be held in a hybrid format from 22-25 February 2022 with most sessions being streamed online.

CALL FOR SUBMISSIONS

Find further information on the [abstract submission page](#).

We invite original, high-quality submissions describing innovative research work in all disciplines addressed in the HBP. These contributions can emphasize theoretical or empirical works relating to a wide spectrum of fields including, but not limited to neuroscience, computer science, robotics, medicine, psychology, cognitive science and philosophy. We particularly encourage submissions with a potential to inspire collaboration in the research community by introducing new and relevant problems, concepts, and ideas, even if the work is at an early stage of development.

Abstract submission deadline: 27 October 2021

REGISTRATION

Participation in the 6th HBP Student Conference is open to the entire student community and early career researchers, regardless of whether they are affiliated with the HBP or not. Participants without contributions to the scientific programme are also welcome. We encourage all young scientists to register and aim for an equal representation of all genders.

Registration for on-site and virtual attendance will open in September 2021.

Please note that registration for the conference is mandatory.

Conference Programme Committee:

Joana Covelo | August Pi i Sunyer Biomedical Research Institute
Sandra Díaz | Forschungszentrum Jülich
Alice Geminiani | University of Pavia
Carmen Lupascu | Italian National Research Council
Paschal Ochang | De Montfort University
Oluyinka Oyeniji | De Montfort University
Taylan Özden | Technical University Darmstadt
Jens Egholm Pedersen | KTH Royal Institute of Technology
Ingrid Reiten | University of Oslo
Alper Yegenoglu | Forschungszentrum Jülich
